

EDUCATION

- Northeastern University** — Boston, MA Jan. 2026 – May 2027
M.S. Data Analytics and Engineering — GPA: 4.00
- University of the Pacific** — Stockton, CA Aug. 2022 – Dec. 2025
B.S. Biological Sciences and B.S. Business Administration — GPA: 4.00
– Dean's Honor List | President's Merit Scholarship

EXPERIENCE

- Archroma** — Charlotte, NC May 2026 – Sept. 2026
Data Analytics Intern, Commercial Excellence
– Raised customer-master reliability across 3 unlinked source systems by applying documented matching criteria and routing ~1,080 ambiguous records to human review rather than accepting unsupported matches
– Standardized reporting quality assurance by building a 203-field data dictionary, refresh runbooks, a 31-item defect log with severity and owners, and a 40-point release audit
- Fraqt** — AI Compliance Platform for University Offices June 2026 – Aug. 2026
Data and systems design | Pre-launch Project
– Built a traceable source base for an AI retrieval workflow by reviewing and structuring 1,194 public federal immigration and tax passages against relevance, completeness, and consistency criteria
– Raised AI-output reliability by designing change-detection controls that flagged superseded guidance, and thresholds requiring user confirmation before extracted fields drove computed deadlines
- Summer Conference, Pacific** — Stockton, CA May 2025 – Aug. 2025
Operations Analytics Assistant
– Improved reporting reliability for 3,000+ participants by validating SQL, Excel, and SPSS datasets and publishing reusable Power BI dashboards for recurring stakeholder reporting
- Eberhardt Student Investment Fund, Pacific** — Stockton, CA Jan. 2025 – May 2025
Student Investment Analyst
– Evaluated S&P 500 companies for the Eberhardt Student Investment Fund, a student-managed portfolio approaching \$6M, by analyzing financial statements, earnings materials, valuation assumptions, and downside risks in Excel
– Supported faculty-led investment-committee discussions by producing equity research documenting sources, theses, catalysts, valuation logic, and risk factors
- Northstar Insight Group** — Remote, U.S. Jan. 2023 – Dec. 2024
Co-Founder and Analytics Lead | Research and Reporting Studio
– Generated \$45K in revenue across 20 paid engagements for 12 small-business and startup clients by co-founding and running a research and reporting studio
– Drove 45% of revenue from repeat clients and referrals by delivering market research, customer analyses, financial models, Excel workbooks, Word reports, and PowerPoint decks
– Documented 80+ issues with evidence, severity, and corrections by reviewing 100+ client materials for source accuracy, spreadsheet logic, chart clarity, and editorial quality

PROJECTS

- Diamond Price Drivers** — Excel-to-Word Analytical Report Spring 2026
Excel, Word, Regression, Data Validation, Web Scraping
– Built a pricing workbook for 918 pear-shaped diamonds across 4 retailers by cleaning web-scraped records and creating pivot tables, regressions, confidence intervals, and retailer benchmarks
– Found that clarity and color together explain 63.3% of price variation, and that the apparent gap between them collapses on individual stones ($R^2 = 0.335$ versus 0.332) once grade averaging is removed, and reported methodology, limitations, and a \$1,700/ct spread between the cheapest and most expensive retailer

ADDITIONAL INFORMATION

- Document and Quality Evaluation:** Document analysis and review, structured evaluation, rubric adherence, source verification, data quality and validation, defect logging, exception handling, research and synthesis, written feedback
- Tools and Analysis:** Microsoft Office — advanced Excel (formulas, PivotTables, data validation), Word, PowerPoint; Power BI (DAX, Power Query), SQL, Python, PostgreSQL, R, SPSS, SAP; data analysis, entity resolution, KPI reporting, A/B testing, regression
- Leadership:** VP of Scholarships and Awards, Delta Sigma Pi | Teaching Assistant
